## Physical Education And Sport Premium

### Background

Playing sport helps to keep people healthy and is good for communities. Playing sport at school or in a local club is also the first step to competition at the highest level, which helps improve our reputation as a sporting nation, and contributes to economic growth.

When people leave school they often stop playing sports, which means they can't fulfil their sporting potential, and this can lead to a less healthy lifestyle. The government wants to get more people playing sport safely from a young age, and help them keep playing sport throughout their life, no matter what their economic or social background.

The London bid for the 2012 Olympic and Paralympic Games was made partly so that its legacy would inspire young people to play more sport. The government is spending over £450 million on improving physical education (PE) and sport in primary schools over the 3 academic years 2013 to 2014, 2014 to 2015 and 2015 to 2016. The funding for the P.E and Sport premium was extended by the Chancellor of the Exchequer in October 2013 and there has been cross party agreement that there will be some funding until 2020.

Schools must use the funding to make additional and sustainable improvements to the quality of PE and sport.

The DFE guidelines state that schools should use the premium in order to:

- develop or add to the PE and sport activities that your school already offers
- build capacity and capability within the school to ensure that improvements made now will benefit pupils joining the school in future years

There are 5 key indicators that schools should expect to see improvement across:

- the engagement of all pupils in regular physical activity - the Chief Medical Officer guidelines recommend that all children and young people aged 5 to 18 engage in at least 60 minutes of physical activity a day, of which 30 minutes should be in school
- the profile of PE and sport is raised across the school as a tool for whole-school improvement
- increased confidence, knowledge and skills of all staff in teaching PE and sport
- broader experience of a range of sports and activities offered to all pupils
- increased participation in competitive sport

In 2014/15 Solent Junior School was allocated PE Premium of £9,330. In 2015/16 and 2016/2017 we were allocated £9,815. In 2017-2018, the funding increased to 16,000 + £10 per child. Last year's P.E premium allocation was £19,710 and for 2019-2020 we have been allocated £19,670.

## **PE at Solent Junior School**

Physical education is vital in its contribution to a pupil's physical and emotional development and health. The aims and objectives of the PE curriculum are to focus on the mastery of key skills including: co-ordination and control of the body, maintenance and improvement of mobility and flexibility, maintenance and improvement of strength and fitness, and development of the capacity to sustain exercise; in addition to promotion of an understanding of the many benefits of exercise for psychological well-being.

The Physical education curriculum aims to provide a systematic programme which contains a balance of individual, paired, group, team, cooperative and competitive activities which will develop pupil's self-confidence through an ability to manage themselves in a variety of situations. This programme is based upon progressive learning objectives that, combined with varied and flexible teaching styles, endeavour to provide stimulating, challenging and enjoyable learning situations for all pupils. Physical education is considered as a vehicle to facilitate access to cross-curricular themes rather than a subject concerned exclusively with the acquisition of motor skills and techniques.

## **PE and Sport Premium Spend and Analysis**

Over the next few pages you will find an action plan and review document. This document outlines the way in which Solent Junior School has spent the PE and Sport Premium to meet the aims outlined on page one. This money makes a significant difference to the way in which our pupils, both today and in the future, become engaged in Sport and PE. This is clearly demonstrated by the impact that is identified in the document.

This equates to 16% of the school.</p>
<p><b>Cost:</b></p>	<p><b>Swimming</b></p>	<p>All pupils should be capable of self-rescue when immersed in water. They should leave primary school being able to swim 25m competently, proficiently and confidently and able to perform a range of strokes.</p>	<p>Curriculum swimming took place in year 4 and year 5 last year with the aim of moving back swimming to the year 3 cohort, as it is thought it will be more beneficial for pupils to learn to swim when in the early years of junior school.</p> <p>Parental data showed that 80 out of the 93 children in the year 6 cohort left Solent junior school having met the end of KS2 swimming requirements. This equates to 86%</p> <p>Teachers of year 4 and 5 children who went swimming last year were given a more comprehensive document to record pupils' swimming attainment on, so that in the future we can rely on both parent and teacher judgements to help make our data as accurate as possible.</p>
